ScanSoft®

Dragon NaturallySpeaking® 8 LEGAL

> *"It used to take two or three days for me to get transcriptions turned around. Now it's virtually instant."*
>
> *-Mike Gagleard, Attorney*

SETTING PRECEDENTS FOR PRODUCTIVITY

Dragon NaturallySpeaking® Legal 8 speech recognition software is a powerful productivity tool that enables legal professionals to work faster and significantly reduce their reliance on support staff and outside transcription services. The results are lower costs and improved client service.

Dragon NaturallySpeaking 8 is the most accurate speech recognition product ScanSoft has ever developed – delivering up to 99% accuracy! It's simple: you can use Dragon NaturallySpeaking Legal 8 to create contracts and e-mails, write briefs and fill out forms, without having to type at all. Dragon NaturallySpeaking Legal 8 is fully integrated with MicroSoft® Office applications including: Word, Excel, Outlook® and PowerPoint®, as well as Corel® WordPerfect®. In fact, it works with just about any Windows® application, including most popular practice management applications. If your organization is ready to dramatically improve efficiency and lower costs, contact ScanSoft or any certified Dragon NaturallySpeaking reseller today!
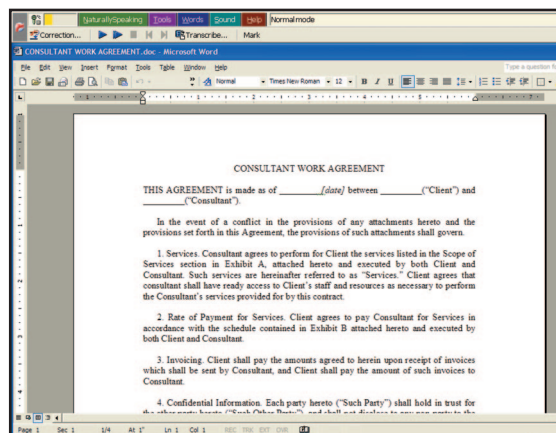

Preconfigured legal vocabulary
Dragon NaturallySpeaking Legal 8 comes with a complete legal dictionary of over 25,000 legal terms, and also automatically formats citations. No other product delivers the power, accuracy and ease-of-use that makes Dragon NaturallySpeaking Legal 8, the ideal solution for busy legal professionals.

Work on-the-go
You can dictate directly into a PC, or be productive on-the-go by dictation into a ScanSoft-certified handheld device such as a digital recorder, Pocket PC or palmOne™ Tungsten™. It's easy to have Dragon NaturallySpeaking automatically transcribe recorded dictations when you synch with a PC, so you or a third party correctionist can edit the document.

Faster than typing
Most people speak over 120 words per minute, but type less than 40 words a minute. That means you can create documents and e-mails about three times faster with Dragon NaturallySpeaking Legal 8. The results are higher productivity, less reliance on support staff, and lower costs.

WORKS WITH THE APPLICATIONS YOU RELY ON

Dictate, edit and control applications all by voice with programs like Microsoft® Word, Microsoft® Outlook®, Microsoft® Excel, Microsoft® PowerPoint®, Internet Explorer®, Corel® WordPerfect®, and more.

More accurate than ever before: With a 20% increase in accuracy, Dragon NaturallySpeaking 8 is up to 99% accurate.

Easy to use: Simply install the Dragon NaturallySpeaking CD, and in just a few minutes, you'll be creating documents, e-mail and filling out forms by voice! We even include a free noise-canceling microphone.

Network ready: Install and manage Dragon NaturallySpeaking Legal 8 from a central network location. You can even access your unique Dragon NaturallySpeaking Legal 8 "profile" from any PC on your organization's local area network.

Use voice commands: Create simple commands that will automate complex, multi-step tasks. Just say a single word or phrase and let your computer do the rest.

Customize your vocabulary: Easily add unique words to the Dragon NaturallySpeaking Legal 8 vocabulary, such as company or product names. You can even create multiple custom vocabularies for different tasks.

Mobile: Be productive on-the-go! Import recordings from any ScanSoft-certified handheld device for automatic transcription and have a third party editor quickly and easily make corrections.

Hear your documents: Use your Pocket PC, palmOne Tungsten or digital recorder to capture your dictation, and let Dragon NaturallySpeaking Legal 8 automatically transcribe it. Palm OS Dragon Recorder software included free!

Say it naturally: By using your voice to control the PC and create documents, you reduce exposure to repetitive stress injuries. If you suffer from arthritis or carpal tunnel syndrome, Dragon NaturallySpeaking Legal 8 will change the way you work with a PC.

APIs for developers Simply Install Dragon NaturallySpeaking Legal 8, and nearly every Windows® application on your PC can be controlled by voice. Complete integration with Microsoft® Word and Excel, including the 2003 editions, with desktop, laptop and Tablet PC systems supported.

Dragon NaturallySpeaking has won over 170 awards worldwide!

A POWERFUL PRODUCTIVITY TOOL

Dragon NaturallySpeaking® Legal enables legal professionals to create and edit documents, forms and e-mails, all by speaking! Reduce or eliminate transcription processing time and costs by dictating directly into a PC or any ScanSoft®-certified digital recorder or PDA. Compatible with Microsoft® Office, Corel® WordPerfect®, and almost any other Windows® application, including most practice management systems.

Typing at 40 words per minute, a person produces a 3-page, 900-word document in approximately **22** minutes.

Dictating 140-160 words per minute, the same 3-page, 900-word document can be produced in just **6** minutes.

Dragon NaturallySpeaking Legal 8 has never been more accurate, and that means you've never been able to work faster on your PC. Even if you type 50 words per minute, Dragon NaturallySpeaking will let you create documents over three times faster than typing because you can speak to Dragon NaturallySpeaking at speeds up to 160 words per minute! If you had to type a 900 word document, it could take nearly 20 minutes even for a fast typist. With Dragon NaturallySpeaking, even the slowest typists can create that same document in just 6 minutes! Plus, you'll save even more time by using voice commands to open programs, navigate, and format by voice.

PLUS: POWERFUL NEW TOOLS FOR DEVELOPERS AND SYSTEM INTEGRATORS

The Dragon NaturallySpeaking SDK includes everything needed to add cutting-edge speech recognition technology to any workflow application. This easy-to-use toolkit enables everything from free text dictation to command and control functionality, and can be deployed as part of a server or client based solution.
